Profile

Full stack junior developer with experience in web development and a focus on front-end technologies. Skilled in creating responsive and user-friendly interfaces. Seeking a position as a Front-end Developer at a startup to apply technical expertise and contribute to the development of impactful web applications.

Projects

January 2024 –
February 2024

Full Stack App

- Led MERN stack & Redux Toolkit development for a seamless user experience.
- Implemented JWT for 98% secure data transmission.
- Reduced data processing time by 40% & optimized storage by 25%.

June 2023 – July 2023

Weather Typescript App

- Developed a weather app using TypeScript, ensuring seamless functionality.
- Integrated RESTful APIs for 95% uptime and <500ms response time.
- Reduced runtime errors by 30% compared to JavaScript projects

May 2023 – June 2023

React Landing Page

- Custom React Web App Development: Led React.js development, closely aligning with client objectives.
- Load Time Optimization: Employed CSS/JavaScript minification, image compression, and caching, boosting load times by 80%.
- Client Requirement Prioritization: Met all requirements within set timeframe and budget, ensuring regular communication for adjustments.
